To: U.S. Environmental Protection Agency
From: Michigan Citizens/Citizens Organizations
Re: State of Michigan Rule 901/SIP Language

We are writing to urge the U.S. Environmental Protection Agency to maintain the State of Michigan Rule 901 as a part of the State of Michigan Implementation (SIP) language as filed with the USEPA.

We request this because:

- * Inclusion in the SIP will continue to make 901 a Federally enforceable rule
- * Because of budget limitations related to enforcement in Wayne County we welcome the additional resource of Federal enforcement when deemed necessary
- * Drastic changes made in State environmental laws cause us concern that Rule 901 might be considered for changes in the future
- * Because 901 is the only rule that provides a basis for enforcement actions related to odors and nuisance offenses

We believe it is critically important to our health and welfare and quality of life to retain Rule 901 at a Federal level.

Sincerely,
